What is COLLAGEN?

Collagen is a protein found in our bones, teeth and muscles that supports cellular activity. 70% of skin is made up of collagen that helps keep our skin firm and bouncy.

Just as we associate collagen to the pillars supporting our skin or acts like the spring in a mattress, when the supporting pillars sag or springs wear out, the “padding” of skin dissipates; meaning there will be loss of firmness and wrinkles starts to appear.

Recent research proves that we start losing collagen even in our twenties.

Lack of collagen is the culprit when it comes to signs of AGEING!

Why need Kinohimitsu Beauty Drink?

Pay attention to what your skin is trying to tell you!

Those tiny yet irritating fine lines on skin may be caused by skin surface dryness. Those more deeply etched lines like crow-feet and neck lines are caused by a more serious lack of imbalance of collagen. So, if you want to have beautiful, firm and youthful skin, by just depending on topical skincare products is not enough as it only works on skin surface.
