We obtain the nutrients from natural food.....

Some people take supplements to gain extra protection.....

# HOWEVER.....

- Are you getting the nutrients of what you are eating?
- Have you truly benefited from the supplements?
- Do you often find yourself switching to new products when the old ones stop working?
- Or the products that you purchased do not seem to give you the desired results?

**The reason lies not on the products but could be the **digestion** and **absorption** of the body.**

**Kinohimitsu Bio-Booster** is the first and only symbiotic-organic to boost the body's absorption power by **more than 2 times**. It enables the host to obtain the optimal absorption of nutrients from the food and health and beauty supplements and gain the maximum benefits from them.

# How it works?

Optimal absorption and health starts in the core - with healthy digestive and immune systems.

## **Restore balanced gut flora**

Promote the growth of good bacteria and eliminate harmful pathogen, yeasts, and parasites; which support bowel regularity to prepare an ideal environment ready for nutrients absorption

## **Improve digestion and nutrient absorption**

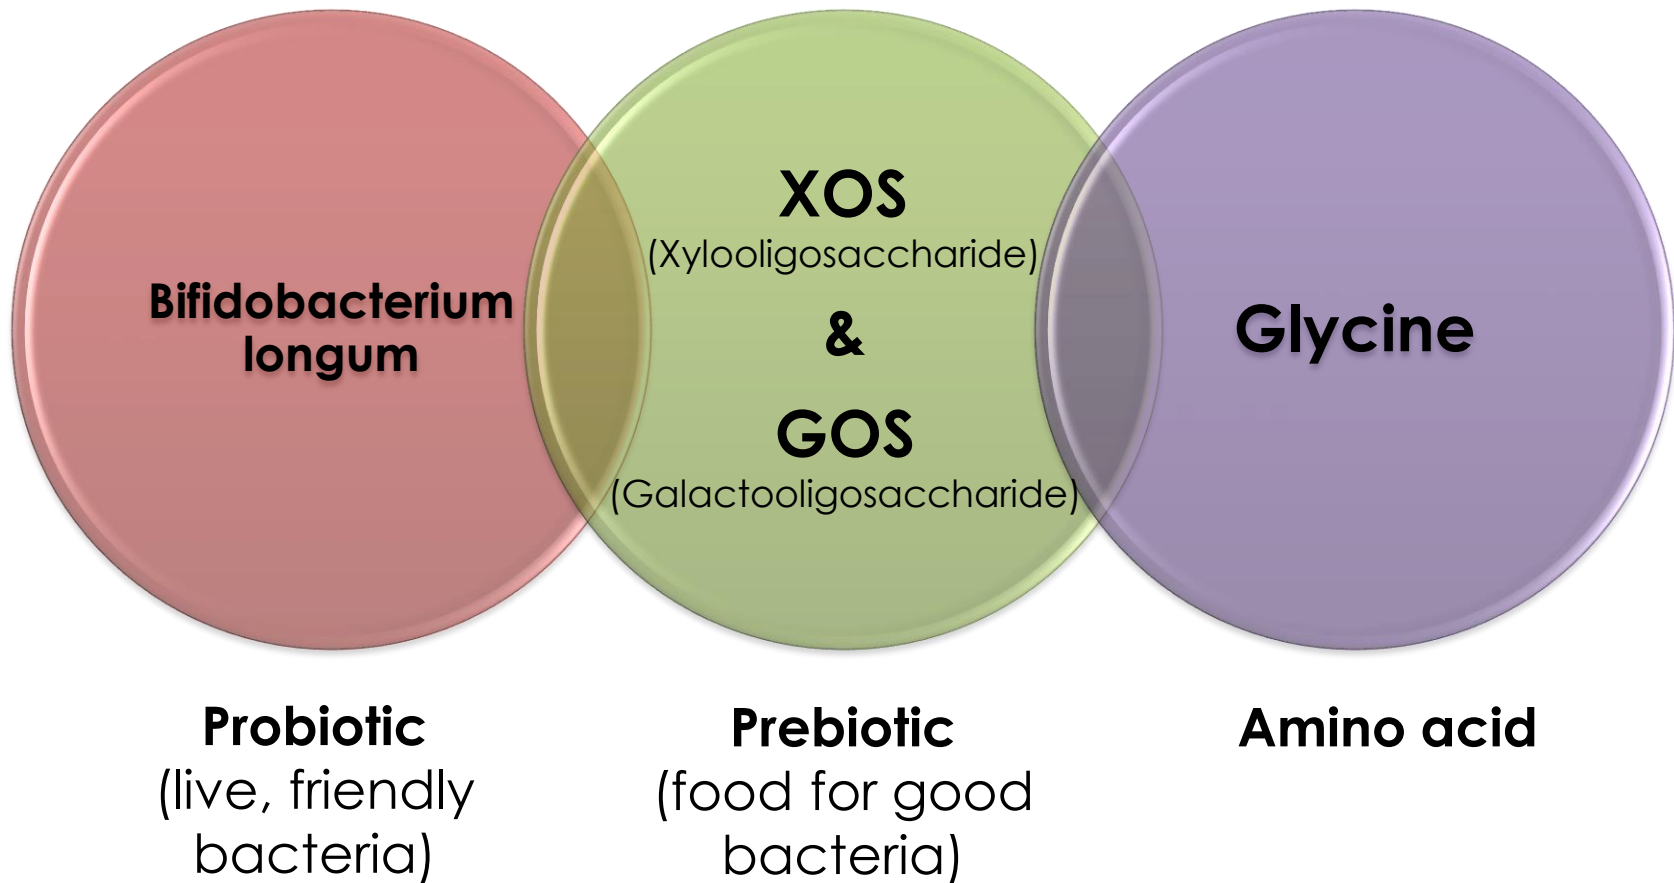

Further break down the semi and undigested food and aid in the synthesis of energy-promoting vitamin B

## **Enhance immune system**

Strengthen intestinal guard and reinforce body's natural defense mechanism which enable the healthy host to effectively utilize the nutrients

# Product USP

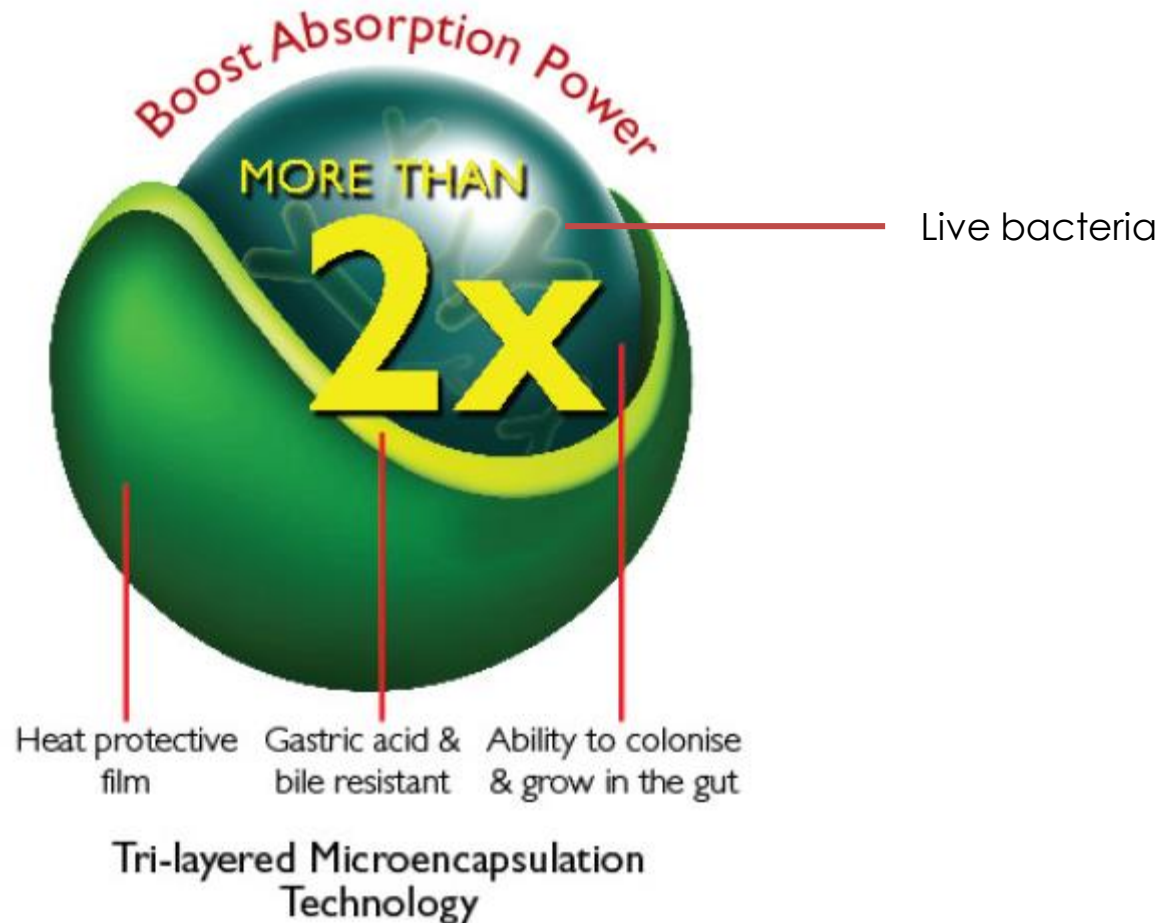

## 1. The proprietary blend

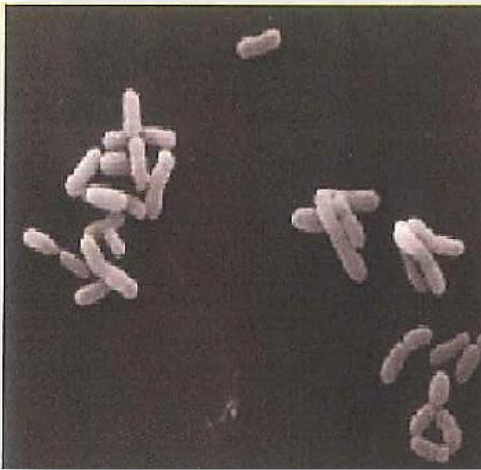

## 2. Advanced Technology

### Tri-layered Microencapsulated Technology

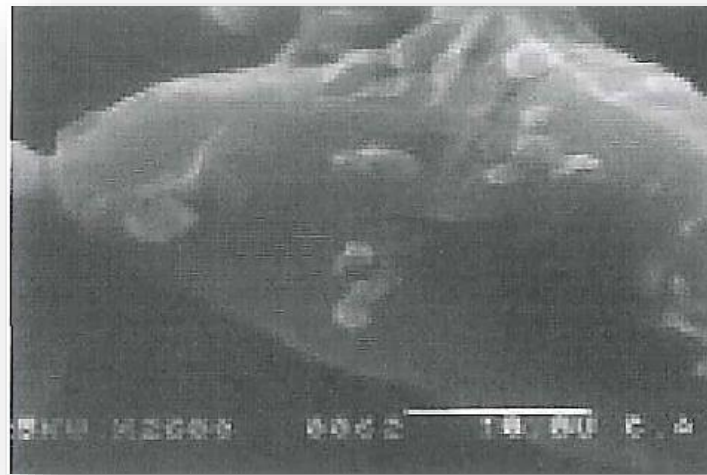

The viable probiotics are encapsulated by three layers of protective films so that they can reach the gut in an active and living state to benefit the host.

## Tri-layered Microencapsulation of Probiotics

Bacteria without encapsulation are easily flush out.

Encapsulated good bacteria are able to **cling onto the intestinal wall, grow and multiply.**

## Recommended consumption

**Usage:** 1 sachet a day, preferably after breakfast.

Open the sachet and pour it directly into the mouth or mix it with 100ml water. Serve with chilled water for delicious taste.
